We at Kasumi High School, located in Hyogo prefecture, take many actions around Sanin Kaigan Geopark to preserve its valuable nature. We check what is happening at the geo site, how many species are living there, breeding activity, and try to protect the environment. We feel that the Geopark provides us with many benefits in our daily lives.

We want to keep protecting the Geopark while using it as a place for students to study the environment. Even though each of our actions might be small and may not have much influence, we would like to pass down the knowledge we got from our elders to the younger generations.

We want to continue being conscious of the fact that we live near a very valuable source of environmental study and we want to learn more about it for our future.
